

## Niagara Watershed (04120104)

**Historic USACE Wetland Mitigation Demand:**  
Annual average of 9.3 acres

**Mitigation Banks in Watershed:** No

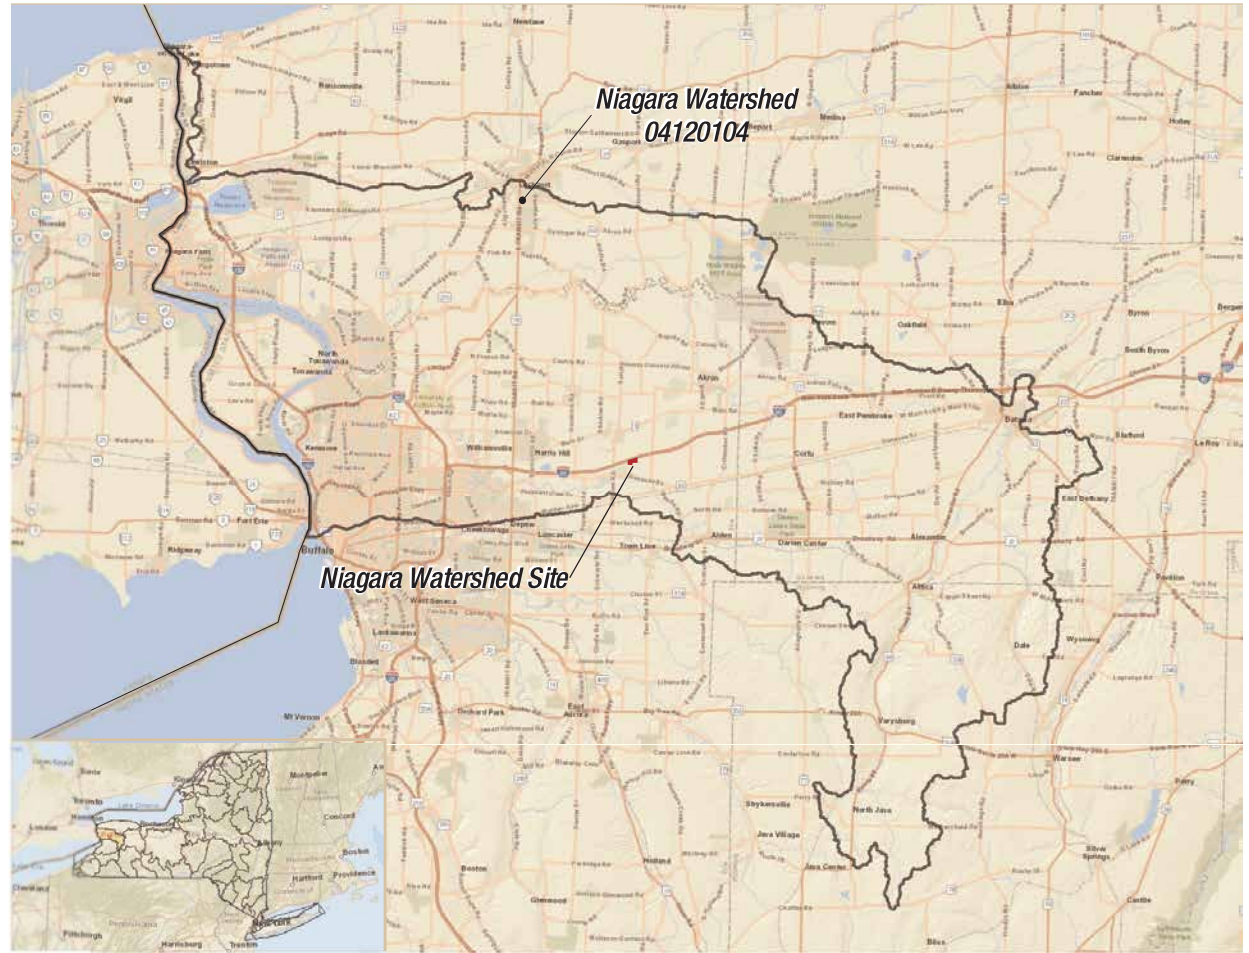

**ILFP in Watershed:** Yes

**ILFP Sponsor:** Ducks Unlimited (DU)

**Credits Sold:** 5.8

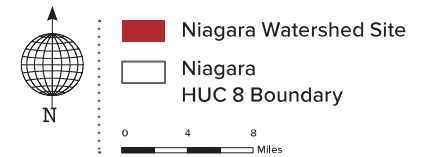

**Available Credits:** 9.2

**Approximate Credit Price:** \$100k

**Figure 7**

Niagara Watershed and  
Niagara Watershed Site Location

## Niagara Watershed Site

**Site Description:** Abandoned mine site that NYSDEC asked WLIP to consider for development of wetland mitigation; original reclamation plans to create wetlands onsite were not realized. Site has mapped NWI wetlands and unmapped large water-filled pit incidental to mining activities. There are opportunities for wetland establishment and rehabilitation activities to generate mitigation credits.

**Watershed:** Niagara

**Impact or Mitigation Site:** Mitigation

**Total Site Acreage:** 90

**Estimated Wetland Mitigation**

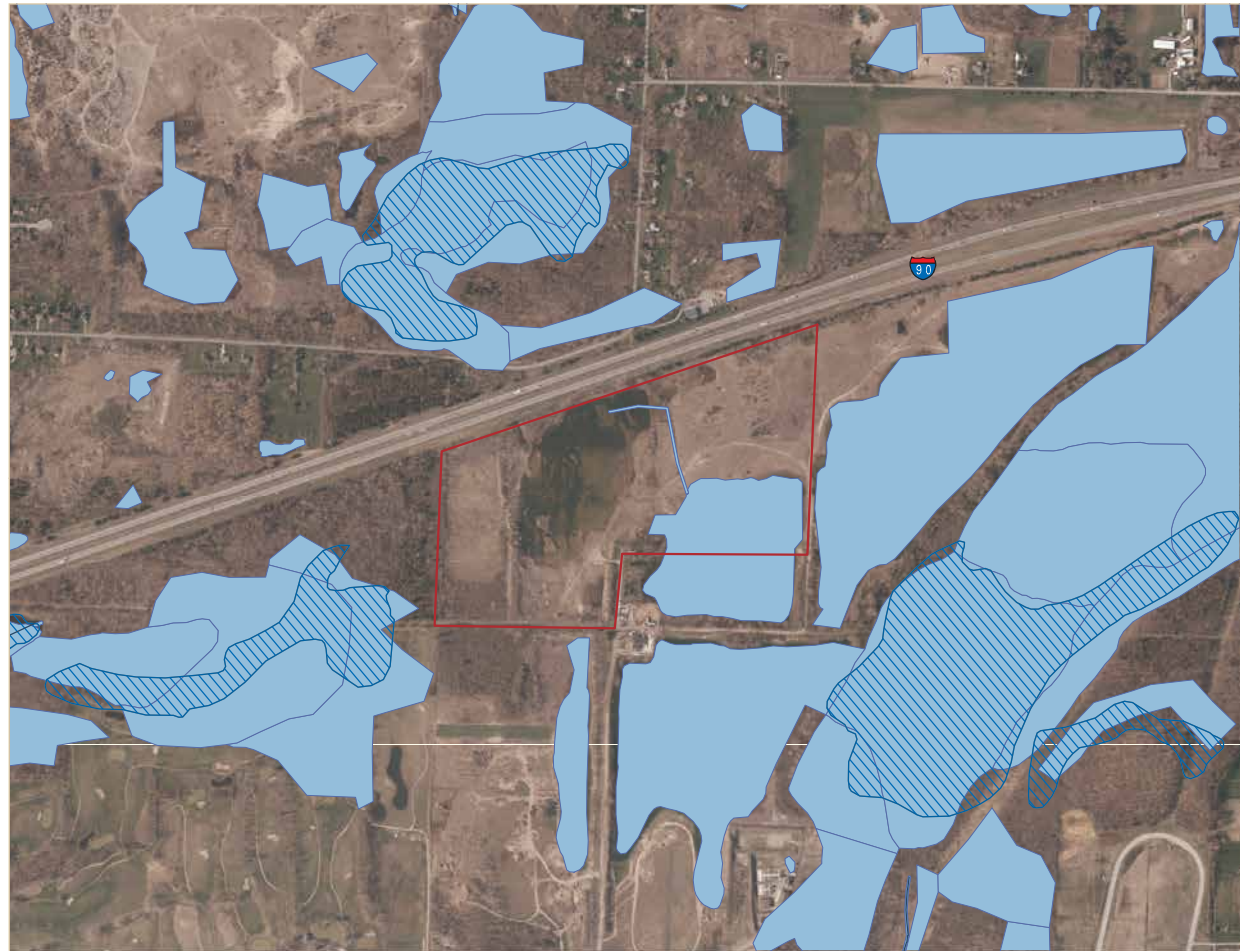

**Credit Potential:** 25

**Estimated Mitigation Sales Potential:**

\$2.5 million

**Recommended Strategy:**

**Develop a mitigation bank at the site or elsewhere in watershed**
